

E-Learning, Gamified and Networked Training for Startuppwers

NEWSLETTER #2

The E-Le.G.A.N.T.S. Project Course Platform is ready!

Elegants Project

Welcome to the Project Elegants course platform.
The course will enhance hard and soft (digital) skills, entrepreneurship and innovativeness, enabling participants to develop better and more effective project ideas to be presented in a StartUp, a competition aimed at spreading entrepreneurial culture. The call for ideas will aim to select the best project ideas.

The Programme is articulated in 3 Courses:

1. Economy and Entrepreneurship
2. New Technologies
3. New Methodologies

Each course is made up of 10 modules consisting of 4 video lessons and one handout each.

Please note that in order to move on to the next lesson, you must have completed watching the previous one.

Complementing this course will be a Startup, a competition aimed at spreading the entrepreneurial culture supporting the birth and development of high-impact business enterprises to promote the economic development of the territory. The best business ideas will receive an online mentorship and services supporting the development of the project's Business Plan.

What are you waiting for?
Start the course now and create your idea so you can be selected for the Startup!

**Co-funded by
the European Union**
